

# Stephen Faris

Write In Candidate for U.S. Senate (Ohio)

Dear Ohioans,

Our country is falling apart. The lack of respect for the law among our people and the rebellion of our officials sadden me.

All States have denied equal protection of law to our unborn children for 50 years. All States choose to disobey our Constitution and follow lawless Supreme Court opinions instead. The Supreme Court and many other high officers and candidates say States may choose to not give our unborn children Justice, but our Constitution says all States must do it as their duty and that Congress may enforce that duty. God also says it is a duty.

Some States wish to allow unborn child murder for any reason. Some States, and our Federal Government, create exceptions and regulations for unborn child murder, free of criminal penalties, and smugly call it, “prolife” to get our votes and money for decades. No State does Justice. Without Justice for all people, especially our innocent and vulnerable, we all suffer. We must all repent of this injustice. Please repent with me. Please call others to repent.

Please send me to our U.S. Senate with your vote in November so I may help repair and enforce Justice in all States. Please remember my name, “Stephen Faris,” as you must write it on your ballot. Please write my name instead of voting for other candidates. Please ask your family, neighbors, friends, and co-workers to write my name. Keep your money. Donate on my website if you wish, but please know there should be no additional price or delay for Justice. Please only write my name and ask many others to write my name.

Unborn child murder, “abortion,” must be abolished, immediately and totally, in all our jurisdictions of the U.S.

Remember, “Stephen Faris,” and WRITE IT on your November 2022 ballot in Ohio for U.S. Senate.
